

GAC812

Excellent Mileage • Lower Fuel Consumption • Safety & Better in Handling

All position

Overview

Rim Sizes:22.5

Aspect Ratio:80mm

Section Width:279-295

Speed Rating:M-M

Features	Benefits
Four belt construction	Increases casing and tread stiffness, optimizes contact surface pressure, minimizing tire deformation for longer wear
Wider tread width design	Larger tread volume for extended wear life
Advanced compound for long haul cool running application	Provides superior wear resistant and low heat generation
Optimized rib ratio and high pattern rigidity	Effectively improves pattern rigidity and force distribution, reducing occurrence of irregular wear
Four circumferential groove design	Delivers better steering and stability, suited for all position application and long haul service
Resilient zig-zag center grooves	Provides better controllability and better resistance against road damages
Sipe design on tread	Delivers enhanced wet grip of tread

Giti - GAC812 offers 2 different tyre sizes

	Tire Size	PR	Load Index	Speed Rating	Approved Rim	Outer Diameter (mm)	Tread Depth (mm)	Max Load(kg)	kPa	PSI
